IAUTA (QUANZHOU) MACHINERY CO., LTD.

Multi-language display

User-friendly interface supports multiple languages, including Arabic, Korean, French, Spanish, and Portuguese.

Laser

Equipped with a precision laser guide to ensure accurate alignment and cutting, enhancing efficiency and reducing material waste.

BOSCH inverter

High-quality BOSCH inverter for precise control, energy efficiency, and stable performance, enhancing overall machine reliability.

PLC

PLC control system for precise automation and operational efficiency, with an optional Mitsubishi PLC upgrade for enhanced performance.

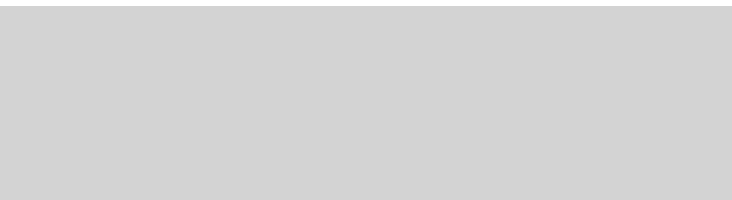

Power switch

Mean Well power switch from Taiwan, ensuring stable voltage control and safe, consistent operation.

Omron relay

Omron relays for dependable control and enhanced safety, ensuring reliable and efficient machine operation.
